Re: Docket Number: WS-01303A-16-0145

As an EPCOR ratepayer and a Sun City West Resident, I strongly object to EPCOR's recommendation for full consolidation for the EPCOR wastewater districts. EPCOR shows their cost of service for our district is approximately \$25/month and the consolidation rate would be over \$40/month for our district ratepayers.

Our generation has never shied away from our responsibility to earn our way and pay for the costs we incur: We should not be forced to subsidize the other districts. There are residents in Sun City West that can barely afford to purchase their monthly medication or even afford to buy the essentials they need to survive. Consolidation would be a terrible blow to their pocketbooks, bare minimum budgets, and to the monthly social security check that they receive; current information implies that we will not see an annual increase in 2017.

Utilities must increase to operate, that is a given, but they should not increase to the extent that an increase is based on convenience or profit sharing that creates a hardship on existing. Please "vote against full consolidation"!

Connie Scott
